

Good morning,

My name is Dan Novak and I am a citizen of the United States, a citizen of Connecticut and a resident of Manchester, Ct.

I am a homeowner, taxpayer and voting resident from my district. I have read the United States Constitution and the Bill of rights

The Second Amendment clearly states that the “right of the people to keep and bear arms shall not be infringed”

This proposed bill is just another infringement of my rights, infringement by cost and infringement by bureaucratic fiat. How many more hoops do the citizens need to jump through to exercise our rights? Do I need to now take all my guns down to the factory to have a micro stamp put on the firing pins. Do I now need to fill out paperwork to register these micro stamps? Who is keeping the records and to what use will they make of these records?

Who is going to pay the costs for the factories to retrofit their equipment. How much more will it cost to purchase a gun.

By the way, criminals don’t go into the store to buy a gun, they steal them. Are we really addressing an issue here or is this “feel good” legislation the intent of which is to further restrict my “rights”?

I am against this legislation.

**Dan Novak
Manchester, Ct**
